DETAILED ACTION

The following Office Action is a response to the appeal brief filed on November 10, 2009. Currently, claims 1-7 and 21-34 are pending and have been allowed. This action includes an examiner's amendment.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Brown on January 20, 2010.

Please amend the claims as follows:

Claim 1: A method in a data processing system for providing a consulting assessment environment, the method comprising:

~~a memory having a plurality of software instructions stored therein, the plurality of software instructions adapted to cause a processor of a computer to perform the steps of:~~

assessment, wherein defining assessment business logic is performed by a consultant, wherein conducting a self-assessment is performed by the consultant or a client, and wherein self-assessment data is stored separately from the assessment business logic;

responsive to determining that the intended use is defining assessment business logic, defining a data template, an assessment framework template, a suggested actions template, and a report template to create the assessment business logic for multiple types of assessments for assessing businesses, further comprising:

encoding the data template, the assessment framework template, the suggested actions template, and the report template with formulas and logic rule definitions to define how self-assessment data is used to generate assessment results and recommendations;

translating a plurality of hypotheses into interview questions for assessing a current state of a business; and

encoding proprietary information and trade secrets into the data template, the assessment framework template, the suggested actions template, and the report template, wherein the proprietary information and the trade secrets of the consulting assessment environment are accessible to the consultant and are made inaccessible to clients using a hiding feature;

responsive to receiving the self-assessment data about the business, computing at least one assessment score based on the formulas and the logic rule definitions encoded in the assessment framework template;

responsive to computing the at least one assessment score, determining an appropriate action based on the at least one assessment score and the suggested actions template encoded with business-related domain knowledge that defines actions to achieve desired states of businesses; and

Reasons for Allowance

The above examiner's amendment is sufficient to overcome the outstanding rejections under § 101 and § 112.

Applicant's arguments in the Appeal Brief dated November 10, 2009 (specifically, pages 14-23) are found to be persuasive, and overcome the outstanding § 103 rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
